ПОЛИЦИЯ ПРЕКРАТИЛА ПОИСКИ НОВОГОДНИХ ПОДАРКОВ

Когда-то отсюда начинались самые громкие расследования, а теперь коридоры молчат - словно вместе с делами исчезли и сами ответы.

Следствие зашло в тупик - исчез даже сам детектив.

Следственное управление Дзержинска официально объявило о закрытии дела, связанного с загадочной пропажей новогодних подарков, которые должны были поступить в город ещё в середине декабря.

По словам представителей ведомства, все возможные следы были тщательно проверены, однако результатов это не принесло. «Мы изучили все поступившие сигналы, опросили свидетелей, проверили склады и транспортные узлы. Но, увы, нить оборвалась где-то между старым почтовым депо и городским архивом», сообщил начальник отдела майор Кулагин. Особый интерес у жителей вызвал тот факт, что детектив Пантелеев М.И., который долгие годы занимался расследованием подобных дел - внезапно перестал выходить на связь. Коллеги уверяют, что в последнее время он стал замкнут и часто упоминал о «странных совпадениях» в старых делах.

ГОРОД ГОТОВИТСЯ К ПРАЗДНИКУ

Жители Дзержинска украшают дворы, спорят о салатах и надеются на чудо.

С приближением Нового года Дзержинск всё больше погружается в привычное, но всё же особое предновогоднее волнение. На центральной площади уже установили ёлку высокую, нарядную, с гирляндами, которые зажигаются ровно в шесть вечера. Рядом торгуют мандаринами, хлопушками и бумажными гирляндами, будто вышедшими из прошлого века. Толпы горожан спешат по делам, кто-то выбирает подарки, кто-то просто гуляет, ловя редкие снежинки.

В воздухе чувствуется лёгкий аромат хвои и мороза, перемешанный с запахом кофе, который наливают в небольших палатках у остановок. «Каждый год одно и то же, смеётся продавщица Валентина с рынка. Все бегут в последний момент, будто не знали, что праздник опять в декабре!» Несмотря на общую суету, в городе царит редкое единство: кто-то помогает соседям украсить окна, кто-то чинит старые гирлянды, кто-то организует сбор игрушек для детского дома. По словам администрации, в этом году планируется более десяти дворовых ёлок и «народный фейерверк» на берегу реки. Однако не обходится и без странностей. Несколько жителей сообщили, что заметили в районе старого почтового депо людей с фонариками поздно ночью. Говорят, будто они искали «следы пропавших подарков». В полиции эту информацию никак не комментируют. Тем временем в витринах появляются надписи «С новым чудом!» вместо привычного «С Новым годом». Кто-то считает это опечаткой, кто-то новым городским мемом. А кто-то тихо добавляет: «Главное, чтобы чудо всё-таки пришло».

Главная ёлка Дзержинска засияла на площади, вместе со светом гирлянд вернётся и праздничное настроение.

ОБ УСТАЛОСТИ И ТИХИХ ДЕКАБРЯХ

Декабрь приходит всегда неожиданно. Даже если весь год мы знали, что он будет. Он приносит с собой запах холодного железа, медленные трамваи и редкие лучи солнца, которые ложатся на снег, будто вспоминая прошлую весну. Город в декабре звучит иначе глухо, приглушённо, как будто каждое движение делается сквозь вату. Люди идут быстрее, но говорят тише. На окнах узоры, нарисованные морозом, и старые гирлянды, которые почему-то всё ещё работают. Это месяц, когда всё вокруг кажется усталым, но в этой усталости есть особая мягкость. Люди начинают вспоминать кого не видели, кому не позвонили, что не успели. И, может быть, именно поэтому декабрь так любим: он даёт шанс остановиться и просто подышать. Всё остальное - потом. В январе будет шумно. В феврале, холодно. А пока - просто декабрь. И всё же в декабре есть то, чего не хватает остальным месяцам, ожидание. Не конкретное, не прописанное в календаре, а то самое внутреннее чувство, когда кажется, что может случиться всё, что угодно. Снег ложится на крыши, как чистый лист, и даже старые дома будто ждут чего-то нового. Может быть, это просто зима. А может быть и это надежда, замаскированная под холод. По прогнозам торговых сетей, спрос не спадёт до конца месяца. А значит, в каждом доме от маленьких квартир до загородных дач в ближайшие недели обязательно будет слышен знакомый аромат детства.

ПРОФЕССИЯ БОКСЁР

В городах всё чаще выбирают работу, где решает не резюме, а сила удара.

Быть боксёром сегодня - не просто спорт, а почти профессия. Тренера отмечают рост интереса к залам, особенно среди тех, кто «устал сидеть за компьютером». По словам инструктора Игоря Р., современные боксёры не только бьют точно, но и умеют считать налоги - некоторые совмещают тренировки с удалённой работой. По вечерам в залах слышно не только звук перчаток, но и разговоры о том, где достать новые бинты и как правильно отстоять в очереди за мандаринами. По данным спортивных комитетов городов, за последний год в открылось очень много новых секций, и уже появились первые желающие «выйти на ринг с жизнью».

Тренировочный зал, вечер, пара боксёров после трудного рабочего дня.

МАНДАРИН ОВЫЙ БУМ

От Владивостока до Калининграда снова запах детства и очереди за символом праздника.

В этом году мандарины вновь стали главным дефицитом декабря. От северных регионов до южных рынков вся страна дружно перешла на цитрусовое питание полки опустели, а продавцы едва успевают разгружать ящики. В Ставрополе покупатели начали скапывать фрукты ещё в первых числах месяца, в Нижнем Новгороде торговцы признаются: «Мандарины исчезают быстрее, чем мы успеваем разложить ценники». В Санкт-Петербурге в магазинах уже шутят, что килограмм цитрусовых стоит, как билет в детство. По сообщениям из Воронежа, очереди выстраиваются ещё до открытия торговых точек. В социальных сетях появляются фотографии машин, нагруженных сетками. Кто-то пишет, что «запах мандаринов теперь чувствуется даже в подъездах». Психологи объясняют ажиотаж просто: аромат цитрусов вызывает у большинства людей «рефлекс праздника».

Старый компьютерный клуб, ЭЛТ-мониторы, полумрак и свет от экранов. Мир, дружба и жвачка - это не лозунг, это буквально то, что лежало на столе между двумя клавиатурами.

СОРЕВНОВАНИЕ ПАРОЛЕЙ В STEAM

Хакеры и геймеры выясняли, кто проведёт больше часов и кому доверят сервер.

В стране завершилось необычное состязание, турнир среди геймеров и программистов за звание «самого надёжного пароля года». Правила были просты: каждый участник должен был установить пароль, равный числу часов, проведённых им в любимой игре Steam. Жюри оценивало не только сложность комбинации, но и преданность делу. Победитель признался, что его пароль состоит из 4627 часов - именно столько он провёл в одном проекте. «Это не просто игра. Это стиль жизни», - сказал один из участников. - «Если кто-то сумеет угадать мой пароль, пусть получает админку». Но самое удивительное началось позже.

Когда о конкурсе услышали сотрудники городского отдела кибербезопасности, некоторые из них... решили проверить идею на практике. Источники сообщают, что несколько полицейских действительно сменили свои пароли на «игровые» значения, мотивируя это тем, что «такое никто не подберёт». Организаторы соревнования утверждают, что их идея была исключительно шуткой, но теперь «игровое шифрование» активно обсуждают в профессиональных кругах. «Может, это и странно, - сказал один из экспертов, - но зато по-человечески это теперь: пароль, который ты заработал потом и клавиатурой».

ДРУЗЬЯ И ТЁПЛЫЕ СВЯЗИ

Немного личного. Авторская колонка редактора. Иногда удивительно, как случай может соединить людей.

Мы не выбираем, где и с кем окажемся - но иногда обстоятельства складываются так, будто кто-то сверху подбрасывает пазлы в нужном порядке. Ещё недавно мы просто преподавали, делились кодом, смеялись над собесами, путали тестовые ветки и смеялись над ошибками кода или дизайна. А теперь всё это стало чем-то большим. Мы команда, или скорее маленькое сообщество, в котором все знают, как важно подхватить другого. Порой мне кажется, что именно такие моменты - ночные обсуждения идей, бесконечные правки в адапте, случайные созвоны и есть настояще чудо. Не потому, что это работа или проект, а потому что в нём есть место теплу.

Эта газета, не просто выпуск. Даже если текст кажется просто «водой», за ним живые голоса, ночи, когда я не спал, а сидел и думал как для вас устроить праздник, чтобы всё получилось красиво. Спасибо всем, кто рядом. Спасибо любимой, что поддерживаешь меня! Тем, кто вдохновляет просто своим присутствием, кто может молча поставить лайк в чате и этим спасти целый мой день. Тем, кто приходит с фразой: «Я тут подумал...» - и начинает что-то новое. Я не знаю, что будет дальше, но знаю, что если рядом те, кто искренне верит в меня, то всё остальное приложится. И пусть это звучит пафосно, но именно в этом и есть моя сущность. Живя, ради того самого чувства, когда ты смотришь на экран и понимаешь - ты не один.
